Summit County Business Physical Distancing Protocol

Must be completed for each facility or work site

Business Name: Tavern West

Facility Address: 311 West Main St, Frisco CO 80443

Approx. gross square footage of space open to the public: 3200 sq ft

Businesses must implement all applicable measures listed below, and be prepared to explain why any measure that is not implemented is not applicable to the business. For businesses that are subject to more specific regulatory rules established by another agency (DORA, CDPHE, etc.), those must also be followed.

Signage

- Signs have been placed at each public entrance of the facility or work site to inform all employees and customers that they should: avoid entering the facility or location if they have a cough or fever; maintain a minimum six-foot distance from one another; sneeze and cough into a cloth or tissue or, if not available, into one's elbow; and not shake hands or engage in any unnecessary physical contact.
[sign template attached]
- A copy of this Physical Distancing Protocol has been placed at each public entrance to the work site.

Measures To Protect Employee Health *(check all that apply to the facility or work site)*

- Everyone who can carry out their work duties from home has been directed to do so.
- Individual discussions have taken place with employees about the fact that older adults and those with chronic medical conditions may be at higher risk for serious illness. Options have been explained to high risk employees, including ways to minimize face-to-face interactions, maintaining six feet of distance from other people, remote work if possible, and leave policies for employees who choose not to come to work.

All employees have been told not to come to work if sick (including any of the following: headache, sore throat, fever (>100.4°F), dry cough, recent inability to taste and smell, shortness of breath, ear aches, body aches, diarrhea, fatigue, vomiting, and abdominal pain). If an employee does have any of these symptoms, employer will ask the employee to get tested for COVID-19 infection. If the test results:

1. Are positive, the employee will be excluded from working for 10 days after symptom onset OR 72 hours after fever ends (without fever reducing medicines) and other symptoms are improving, whichever of these is longer.
2. If the test results are negative, the employee will be excluded from working until 72 hours after fever ends (without fever reducing medicines) and other symptoms are improving.
3. If testing is not completed, the employee will be excluded from working for 10 days after symptoms onset OR 72 hours after fever ends (without fever reducing medicines) and other symptoms are improving, whichever of these is longer.

Symptom checks are being conducted before employees may enter the work site. See [template here](#) or below.

Copies of this Protocol have been distributed to all employees.

All employees working in any indoor space open to the public and in settings not open to the public where six feet of separation cannot be maintained must wear face coverings. Customers must also wear face covers when entering the business.

Optional — Describe other measures:

Even in outdoor dining and food-service spaces, because personal distancing may fluctuate, all employees will wear face coverings.

Measures To Keep People At Least Six Feet Apart (You must comply with all items below that are applicable to your location. Please check each box to confirm you have reviewed the requirement.)

All employees have been instructed to maintain at least six feet of distance from customers and each other (employees may momentarily come closer when needed to accept payment, deliver goods or services, or when otherwise unavoidable).

All desks, individual work stations, or work areas are separated by at least six feet.

Tape or other markings have been placed at least six feet apart in customer line areas inside the store and on sidewalks to public entrances with signs directing customers to use the markings to maintain distance.

Order areas are separated from delivery areas to prevent customers from gathering.

For retail businesses: Retailers are to add directional indicators for each aisle to encourage customers to go one way down each aisle.

Optional — Describe other measures:

Measures To Prevent Crowds From Gathering: *(check all that apply to the facility or work site)*

The number of customers in the store at any one time is limited to a maximum of 1 person per 100 square feet of retail area (see square feet value above). This allows for customers and employees to easily maintain at least six-foot distance from one another at all practicable times. A maximum of 1 person per 100 square feet will be allowed within this business at any time. *(Gross square footage of space / 100).*

Maximum number of persons allowed in this business:

An employee is monitoring the door to ensure that the maximum number of customers in the facility set forth above is not exceeded.

Optional—Describe other measures:

Measures To Increase Sanitization *(check all that apply to the facility or work site)*

Hand sanitizer, soap and water, or effective disinfectant is available to the public and employees at or near the entrance of the facility or work site, at checkout counters, workstations, and anywhere else where people have direct interactions. Location(s) include:

At host station, near patio doors, outside restrooms, at server stations, at order and pick-up areas.

Disinfecting wipes or spray that is effective against COVID-19 are available near workstations and all high-contact surfaces (including payment portals, carts, baskets, pens, shared tools, heavy equipment, etc.). Location(s) include:

At server stations. At order and pick-up counters. At registers and order-entry terminals.

Employee(s) have been assigned to [clean/disinfect](#) all high-contact surfaces frequently.

Break rooms, bathrooms, and other common areas are being disinfected on the following

schedule:

<input type="checkbox"/> Break Rooms	N/A
<input checked="" type="checkbox"/> Bathrooms	Prior to opening, every 60 minutes during service, at closing.
<input type="checkbox"/> Other	

Optional — Describe other measures:

Measures To Prevent Unnecessary Contact (check all that apply to the facility or work site)

Contactless payment systems have been provided or, if not feasible, payment systems are sanitized regularly. Describe:

Curb-side drop-off/pick-up of products is available.

People are prevented from self-serving any items that are food-related (including bulk food, plates, cups, lids, etc.).

Optional—Describe other measures (e.g. providing senior-only hours, shields):

Measures To Reduce Exposures in Employee Transportation (check all that apply to the facility or work site)

When passengers from separate households share a vehicle (carpool) the following criteria is promoted/expected:

Hand sanitizer is used by each passenger when entering the vehicle.

The number of passengers has been reduced by 50% of the vehicle's occupancy, and passengers sit in locations to maximize the distance between one another.

All passengers will wear a non-medical, cloth face-covering.

Windows will remain open and ventilation is increased.

All high-contact surfaces of the vehicle will be disinfected at the end of each day.

Any additional measures not included here should be listed on separate pages, which the business may attach to this document.

Employees, customers and other interested parties may contact the following person with any questions or comments about this protocol:
